The Borrower intends to bid for all of the Bonds presently outstanding. It should be noted that the interests of the Borrower are different from and, in fact, may be contrary to the interests of an investor because the Borrower is seeking to establish the lowest interest rate on the Bonds while an investor generally seeks the highest interest rate on the Bonds.

If on the Date of Next Auction there are no bids to purchase Bonds at an interest rate that is lower than the Designated Rate, then the Borrower will become the owner of any Bonds for which a Sell Order has been submitted in such auction, and the Auction Rate will be reset to a rate equal to the Designated Rate and all of the Bonds (whether or not owned by the Borrower and whether or not offered by their respective owners for sale in such auction) subject to such auction will bear interest at that rate.

The Borrower intends to take the following steps to purchase Bonds from holders after the date of the Next Auction: The Borrower will purchase all Bonds presented to a Broker-Dealer on any business day that intervenes between regularly scheduled auction dates. The purchase price shall be par plus accrued interest. Accrued interest shall be calculated using the clearing rate of interest established by the last completed auction, and shall be equal to the amount of interest that has accrued from the last interest payment date to the date of purchase by the Borrower.

The Borrower intends to continue to submit Bids in the auctions to purchase up to all of the Bonds offered in each auction at the Designated Rate (as it may change from time to time) until such time as the Borrower beneficially owns all of the Bonds.

Once the Borrower commences to bid in auctions for the Bonds, to prevent the application of the All-Hold Rate, it is possible that the Borrower will submit a “Sell Order” for all or a portion of the Bonds, at the discretion of the Borrower, that the Borrower owns, together with a Bid to purchase up to all of the Bonds subject to the auction at the Designated Rate (as it may change from time to time).

The Borrower provides the following information regarding the Prior Auction for the Bonds:

It is the intent of the Borrower to bid at a rate no lower than SIFMA plus 0.25% in order to avoid an auction leading to a below market clearing rate, as described in the letter issued by the Securities and Exchange Commission on March 14, 2008 (the "SEC Letter"). Copies of the SEC Letter may be obtained at www.sec.gov/divisions/corpfin/cf-noaction/2008/mars031408.pdf.

The statements made in this notice are subject to any statements made in subsequent notices posted by the Borrower relative to the Bonds on its website (www.ghs.org) and otherwise in accordance with the SEC Letter.
