1. Topic 1: an explanation of the relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution:

- the characteristics of the execution venue to which that relevant order can be directed.

Subject to any specific instructions, taking into account the criteria above, GS will generally give the highest priority to net price. The remaining execution factors are generally given equal ranking.

We have a degree of discretion in how to apply the different execution factors and this may result in a range of different permissible approaches to executing client orders.
