Appendix
Non-GAAP measures

In addition to preparing our condensed consolidated statements of financial condition in accordance with U.S. GAAP, we prepare a balance sheet that generally allocates assets to our businesses, which is a non-GAAP presentation and may not be comparable to similar non-GAAP presentations used by other companies. We believe that presenting our assets on this basis is meaningful because it is consistent with the way management views and manages risks associated with the firm’s assets and better enables investors to assess the liquidity of the firm’s assets. For a reconciliation of this balance sheet allocation to our U.S. GAAP balance sheet for the period ended June 30, 2017, see “Balance Sheet and Funding Sources” in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the firm’s Quarterly Report on Form 10-Q for the period ended June 30, 2017. For a reconciliation of this balance sheet allocation to our U.S. GAAP balance sheet for the period ended June 30, 2013, see “Balance Sheet and Funding Sources” in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the firm’s Quarterly Report on Form 10-Q for the period ended June 30, 2013.
