Cautionary Note on Forward-Looking Statements

Today’s presentation may include forward-looking statements. These statements are not historical facts, but instead represent only the Firm’s beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside of the Firm’s control. It is possible that the Firm’s actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements.

For a discussion of some of the risks and important factors that could affect the Firm’s future results and financial condition, see “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2014. You should also read the forward-looking disclaimers in our Form 10-Q for the period ended September 30, 2015, particularly as it relates to capital and leverage ratios and the forward-looking disclaimers in our Form 8-K dated January 14, 2016 relating to our settlement in principle with the RMBS Working Group, and information on the calculation of non-GAAP financial measures that is posted on the Investor Relations portion of our website: www.gs.com.

The statements in the presentation are current only as of its date, February 9, 2016.

- Since 2012, tech headcount in strategic locations have increased 31% and currently represents 41% of our total tech headcount.

- Continued evolution of our cloud strategy and use of open source software has enabled a reduction to our infrastructure vendor spend.

Since 2012, our compensation ratio has remained consistently in a range of ~37-38% as we’ve reduced compensation expense by ~$270mm despite a significant increase in headcount.
