

Time for Action

Super: “To achieve our long-term aspirations, business leaders must focus on what we can do in the here and now to accelerate climate transition.”

David M. Solomon

Chairman and CEO, Goldman Sachs

VO: As we come to the end of 2021, we’re sharing our sustainable finance commitment.

Because if ever there was a time for action...this is it.

Action that will [help] accelerate the transition to a low -carbon economy.

And that starts with our own commitment to aligning our whole business with a net zero by 2050 pathway. Day-in, day-out, together leveraging the full breadth of our firm to make it happen.

Action that means actively engaging with our clients...supporting them on their own paths to transition with capital and advice, and innovative research and tools.

Super: [Carbonomics] [Decarbonization Toolkit] [Marquee Carbon Portfolio Analytics]

Action through partnerships and collaborations that will be critical in advancing net-zero ambitions.

Super: [Center Climate Aligned Finance] [Bloomberg Philanthropies] [OS-C] [Inevitable Policy Response] [ADB]

VO: And behind it all...our people — across teams and geographies.

VO: A whole-of-business, whole-of-society approach...
...because there is no other approach.

Super: Accelerating Transition
