

An Open Letter to the US Congress, Signed by the *10,000 Small Businesses Voices* Community

August 11, 2020

In an open letter to Congress that ran in The Washington Post, over 1200 alums of the Goldman Sachs 10,000 Small Businesses program urged leaders to pass relief for small businesses, who are still facing unprecedented challenges from the pandemic. The letter is published below. [Click here](#) to learn more about 10,000 Small Businesses Voices, our advocacy program.

UTAH

Dear Congress,

We are America's small businesses. We are the foundation of our local communities. We are builders, manufacturers, restaurant owners and more. We run the coffee shops, the cleaners, the corner stores. We are Democrats, Republicans, and Independents. We never stop working and we need the same from you.

Our message is clear: return to Washington and pass relief for America's small businesses.

Our future depends on you. The first round of federal support helped us stay afloat and kept our teams employed. Now, only 16% of us are confident we will be able to maintain payroll without more help. Not one of us asked to be in this position. We take great pride in the important role we play in America's economy. All we want is to keep doing our jobs.

Please show that our government works for us,

The *10,000 Small Businesses Voices* Community
