## Introduction

### Overview

The Goldman Sachs Group, Inc. (Group Inc. or parent company), a Delaware corporation, together with its consolidated subsidiaries (collectively, the firm), is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and individuals. Goldman Sachs Group UK Limited (GSGUKL) is a wholly owned subsidiary of Group Inc.. When we use the terms “Goldman Sachs” and “the firm”, we mean Group Inc. and its consolidated subsidiaries and when we use the terms “GSGUK”, “we”, “us” and “our”, we mean GSGUKL and its consolidated subsidiaries.

GSGUK is supervised on a consolidated basis by the Prudential Regulation Authority (PRA). Certain subsidiaries of GSGUK are regulated by the Financial Conduct Authority (FCA) and the PRA.

Asset encumbrance refers to the pledging or use of an asset as a means to secure, collateralise or credit-enhance any on-balance-sheet or off-balance-sheet transaction from which it

cannot be freely withdrawn. The majority of our encumbrance is driven by secured financing activities, which include transactions in repo, securities lending, facilitation of short positions (customer and firm) and collateral swaps. The remaining encumbrance is driven by derivatives trading. A portion of GSGUK’s assets are encumbered in currencies other than US Dollars. Asset encumbrance is an integral part of GSGUK’s liquidity, funding and collateral management process.

The tables in this section identify components of our encumbered and unencumbered assets for the period ended November 30, 2019. All numbers in the tables are based on U.K. Generally Accepted Accounting Practices (U.K. GAAP) and median values are computed over the preceding 4 quarterly data points. This disclosure is being made in accordance with the format outlined in Commission Delegated Regulation (EU) 2017/2295 supplementing regulation (EU) No 575/2013 on the disclosure of encumbered and unencumbered assets.

6. HQLA balances reported in this row mainly comprise of securities issued by Multinational Development Banks and Public Sector Enterprises

The firm receives securities collateral in respect of securities purchased under agreement to resell, secured borrowings, margin loans and derivatives. The tables below break down securities collateral received into the portion which has been treated as encumbered and the portion which is available for encumbrance.

<b>Other Sources of Encumbrance</b>	233,017	266,156

1. There may be a mismatch between liabilities and encumbered assets and collateral received driven by the GAAP presentation of derivatives

## Commentary

We view GSGUK's level of asset encumbrance as being higher than the level of asset encumbrance implied in the preceding tables due to differences in GAAP presentation of derivatives and encumbrance methodology. In this disclosure, derivative instruments are reported in accordance with U.K. GAAP. In addition, total assets include collateralised lending where the receivable is reported as a balance sheet asset in Tables 1 and 2 and the underlying collateral received is reported in Tables 3 and 4 resulting in double counting of these assets.

GSGUK primarily adopts standard collateral agreements and collateralises based on industry standard contractual agreements (mostly Credit Support Annexes (CSA) and Global Master Repurchase Agreements (GMRA)). The rights and obligations on collateral posted to counterparties for derivatives are dependent on the counterparty and the nature and jurisdiction of the CSA. Derivative liabilities are collateralised primarily using G10 currencies and government bonds.

## **Cautionary Note on Forward-Looking Statements**

We have included or incorporated by reference in these disclosures, and from time to time our management may make, statements that may constitute “forward-looking statements.” Forward-looking statements are not historical facts, but instead represent only our beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These statements include statements other than historical information or statements of current condition.

It is possible that our actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Important factors that could cause our actual results and financial condition to differ from those indicated in the forward-looking statements include, among others, those discussed under “Risk Factors” in Part I, Item 1A in the firm’s 2019 Form 10-K.
