Cautionary Note on Forward-Looking Statements

Today's remarks include forward-looking statements. These statements are not historical facts, but instead represent only the Firm's beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside of the Firm's control. Forward-looking statements include statements about potential revenue and growth opportunities, timing and profitability of business and strategic initiatives (including projected fundraising, AUM and related profitability of our AWM business), and the macro environment. It is possible that the Firm's actual results, including the incremental revenues, if any, from such opportunities, and financial condition, may differ, possibly materially, from the anticipated results, financial condition, and incremental revenues indicated in these forward-looking statements.

Statements about our revenue and growth opportunities, profitability of business and strategic initiatives are subject to the risk that the Firm's businesses may be unable to generate additional incremental revenues or take advantage of growth opportunities and that we may not be able to implement the business and strategic initiatives on the terms or otherwise as we currently expect. Statements about our current fundraising expectations are subject to the risk that actual fundraising may be lower than expected due to, among other factors, competition from other asset managers, changes in investment preferences and changes in economic or markets conditions. Statements regarding estimated GDP growth or contraction, interest rate and inflation trends and volatility are subject to the risk that actual GDP growth or contraction, interest rate and inflation trends and volatility may differ, possibly materially, due to among other things, changes in general economic conditions and monetary and fiscal policy. For a discussion of some of the risks and important factors that could affect the Firm's future results and financial condition, see "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023. You should also read the forward-looking disclaimers in our Form 10-Q for the period ended March 31, 2024, and information on the calculation of non-GAAP financial measures that is posted on the Investor Relations portion of our website: www.gs.com.

These remarks are current only as of its date, May 30, 2024.
